

**WE UNDERSTAND YOUR NEED FOR A PARTNER YOU CAN RELY ON, AND WE CAN HELP IN MORE WAYS THAN TWO.**

**Sure, you need parts washer and used oil collection services.** Most dealerships do. But what about all the services unique to the kinds of vehicles and equipment you service? The precise programs and products to support you while you work. Our comprehensive set of tailored solutions can provide you with the right mix to do your job in a compliant and efficient manner. We've helped more than 6,800 recreational and machinery dealerships with services, combined with our commitment to quality and risk reduction, making us the perfect partner.

PROTECTION·CHOICES·PEOPLE

Recreational & Machinery Dealerships

# Protect your dealership's service center, your reputation and the environment.

If you are responsible for environmental health and safety, let the environmental professionals at Safety-Kleen help shoulder that responsibility. Our services can be tailored to the unique needs of your dealership, while still ensuring you're in full compliance with all local, state, provincial and federal regulations. Our practices provide the highest level of risk reduction in the industry, backed by our Certificate of Assurance and Indemnification.

You can also count on us to help you with everything from shop supplies and absorbents to keeping your oil water separator running clean all while collecting used motor oil and delivering new.

## Choices that keep your dealership clean & efficient.

Your dealership needs sustainable choices. When you manage a dealership, surprises are the last thing you need. Let the environmental professionals at Safety-Kleen show you how to reduce regulatory risk and keep your bays clean and efficient. More than 6,800 dealerships rely on us to clean parts to maintain vehicles and machinery, remove paint waste and used absorbents, and clean out traps and pits in the car wash bay area.

### Parts Washing Solutions

After more than 50 years, Safety-Kleen continues to lead the Parts Washing industry by providing unrivaled service and top-notch equipment to help meet your performance demands. With our extensive line of manual and automated equipment, our high performance solvent and aqueous chemistries and superior service, we can provide the customized program your cleaning needs demand.

Solvent  
Recycling

MODEL 275  
Solvent Recycling  
for existing equipment

<i>Our full line of manual parts washers are available with solvent or aqueous chemistries.</i>	<i>Spray washers, immersion agitation, and ultrasonic systems for superior aqueous cleaning performance.</i>	<i>Cleaner solvent between service visits. Reduces waste disposal needs.</i>
<b>MANUAL</b>	<b>AUTOMATIC</b>	<b>ONSITE RECYCLING</b>

### Vacuum Truck Services

Safety-Kleen's fleet of high-powered vacuum trucks will pump out waste water, separate oily water, and service wash bays and floor trenches, ensuring proper disposal of your waste.

- Oil/Water Separators
- Wash Bay Pits
- Trenching in shop area

### Containerized Waste

Safety-Kleen provides the proper handling, recycling and disposal of both hazardous and non-hazardous wastes. Stay compliant with local, state, provincial and federal regulations.

- Paint & Paint-related Waste
- Gas & Brake Fluid
- Absorbents & Absorbent-related Waste
- Aerosols
- Used Bulbs
- And many other wastes generated by dealerships

**Used Oil, Oil Filter Collection and Lubricants** *Everything you need for complete oil management.*

- Proper regulatory documentation showing your used oil is being handled in compliance.
- Customized used oil pick-up schedules, along with emergency overflow response.
- Collection of bulk oil filters using a patented process that gives you less hassles and takes up less space.
- Lubricants that deliver superior quality and unmatched performance. Performance Plus® products have been tested and trusted and are the oil of choice for Roush Fenway Racing and several large government and commercial fleets, including our own.

Safety-Kleen is the world leader in oil collection and the use of oils as a renewable resource through our proprietary re-refining process. Through this unique closed-loop system, we have redefined customer value.
